

The purposes of NEPA are:

*To declare a national policy which will encourage productive and enjoyable harmony between man and his environment; to promote efforts which will prevent or eliminate damage to the environment and biosphere and stimulate the health and welfare of man; to enrich the understanding of the ecological systems and natural resources important to the Nation; and to establish a Council on Environmental Quality. Sec. 2 [42 USC § 4321]*

NEPA contains provisions to include cultural resources by adhering to the National Historic Preservation Act (NHPA). NHPA was enacted to protect the Nation’s historical resources from mounting development and expansion pressures by establishing a comprehensive national historic preservation policy.
